

HEN HYDRATOR

Provides access to clean water on demand

- Keeps water clean and can help prevent disease
- Translucent bucket allows easy view of water level
- Blue color provides UV protection to prevent algae growth
- Lid fits tightly to prevent spills and protect contents of bucket
- Each nipple can accommodate up to 4 birds
- 3.5 gallon capacity

For best results remove all other water sources. Tap each nipple so chickens can see water dripping. Acceptance of this watering method may take time but once a few birds begin to use it others should follow.

Recommended merchandising configuration

POULTRY NIPPLES

Transforms a standard bucket or PVC pipe into a poultry watering device

- Keeps water clean and can help prevent disease
- Each nipple accommodates up to 4 birds
- Vertical mounting / gravity feed only
- Easy to install
- 4 pack

- Provides the opportunity for impulse sales
- Takes up no shelf space
- Pre-loaded clip strip is extremely easy to merchandise
- Great margin potential

Easy-to-remove fill plug allows for refilling without removing the entire lid

Hanging height will vary by breed but should be high enough so that chickens must reach up slightly to drink
